## CLEAN-UP PARADE WILL

### BE THIS AFTERNOON

Begins Near School Building;  
Speech-making at City Park  
To Be Climax

With a blare of trumpets and roll of drums the much talked of Civic Improvement Parade will unroll itself before the public this afternoon at 3 o'clock. Instead of Monday as formerly announced. The parade under the auspices of the Parent-Teachers Association, will start from the High School and end at Lotus Park, the new civic center on the Court House square, where Mrs. S. O. Keown will direct the singing of several original songs by the school children. After this the following speakers will address the assembly: Judge W. H. Barnes, Mrs. S. O. Keown, Judge Mack Cook, Messrs. A. D. Kirk, C. O. Hunter, W. C. Blankenship and James A. Tate.

The parade will consist of the following characters and episodes, together with the entire student body of Hartford Graded and High School:

Heralds, Misses Amella Pirle and Bessie Clark.

Bugle and Drum Corps: Messrs. Frank Tichenor, Archie Johnson and Cecil Tichenor.

"The Kicker"—White Mule led by Mr. Douglas Williams.

"Hartford As She Is", representing the town without improvements—Miss Beatrice Leach and Messrs. Virgil Crowe and Everett Himes.

"Hartford As She Ought To Be"—Little Miss Irene Cox Birkhead and Master Kenneth Birkhead in pony carriage.

The Jesters—Messrs. Raymond Felix and Blanton Ellis.

"A Study in Whites and Browns"—Messrs. Coleman, James Owen and Clifton Brown, also Dixie.

"The Gold Dust Twins", featuring Misses Mercedes Baird and Geneva Howard.

"Dirt Chasers"—A truck load of soap conveyed by Miss Elizabeth Moore, representing "Old Dutch Cleanser."

"Patriotism"—Car draped in the Colors and filled with pretty girls.

"Snow White"—Mr. Tony Johnson driving car overflowing with daintiness and blossoms.

"The Clean Up Infantry"—School children marching with brooms, mops, rakes, hoes, dusters, fly swatters et cetera.

"Hartford's Road Builders", featuring the pick and shovel squad all ready for action, under the direction of Messrs. David Bishop and Jesse Smith.

Field Marshals—Messrs. Parke Taylor and Edward Duke.

This municipal gala day will be under the general supervision of Mrs. John B. Wilson, President of the Parent-Teachers Association and Mrs. Rowan Holbrook, Chairman of the Civic Betterment Committee, assisted by Miss Winnie Davis Simmerman and Mr. McDowell A. Fogle, composing the Parade Committee. The placards used will be due to the artistic talent and public spirited industry of Mr. Raymond Felix.

Much credit is due the entire personnel of the Hartford school and friends for their deep interest and hearty co-operation with the Parade Committee. It is hoped that all who can possibly do so will be on hand at the Park to encourage the improvement of Hartford.

## DEATH AT ROCKPORT

Mrs. Lula Botton died at her residence in Rockport, at 4 p. m., Sunday, after a lingering illness of tuberculosis. She was about 30 years of age. Among those she leaves are two sons and one daughter. She was a member of Rockport Presbyterian church.

Burial occurred at Rockport cemetery, Monday afternoon, at 3 o'clock.

## OHIO COUNTY BOY MAKES UNIVERSITY TEAM

According to press reports Byron Williams, who played on the Hartford baseball team last season and is now a student in the University of Kentucky, will play 3rd base on the varsity team of that institution this year.

## HALF MILLION IN LOOT IN DARING MAIL THEFT

Cincinnati, April 7.—Four men in an automobile tonight held up and robbed a United States post office mail truck near the West End station of the Baltimore & Ohio Railroad here. Several pouches of registered mail were taken from the truck and carried away by the robbers. It was impossible tonight to ascertain the amount of loot taken.

Chicago, April 7.—Special investigators sent from Washington in connection with the theft yesterday at the Dearborn station of mail pouches containing cash and securities believed to total more than \$500,000, tonight were proceeding on the theory that the robbery had been carried out by a national gang of mail thieves who obtained advance information of money shipments from postal employees.

The investigators were convinced that yesterday's theft was an "inside job," because of the fact that the robbers sorted a number of sacks on a mail truck in the station and selected only those which contained valuables.

The same procedure was carried out today in another robbery at Sullivan, Ind., once the house of Postmaster General Will Hays, the robbers selecting the sacks containing money, although there was nothing on the pouches to indicate that they contained other than ordinary mail.

A score of persons were arrested today in connection with the robbery here, but most of them were released. The police said that two of the men held probably would be able to furnish information of the operations of the mail thieves, however.

## SAYS IMMORALITY MENACES SCHOOLS

Cleveland, April 11.—In a report read and discussed by the child welfare department of the Cleveland Federation of Women's Clubs, Superintendent of Schools R. C. Jones said immorality is the greatest menace of the public school today; that we are fast drifting toward free love in this country; that the mothers of the nation are not making good on the jobs and that dancing in Cleveland schools will be barred entirely, unless it is conducted as a wholesome pleasure and entertainment for school pupils.

"Indifference on the part of parents toward the activities of their children is one of the great problems in immorality," Mr. Jones' report continued. "It is up to the women and mothers to set higher standards of morality and home life. Unless there is a greater feeling of morality I fear the community and nation will drift toward free love."

The condition in Cleveland's high schools, Supt. Jones asserted, was particularly aggravated by the extreme dressing on the part of many girls, by night riding in automobiles and by "close" dancing at school parties.

"Too many young people are dressing beyond their means. Silk hosiery, low-necked waists, short skirts, rouge and powder should be tabooed by school girls," the report said.

## ANOTHER GUSHER "IN"

Hot Springs, Ark., April 11.—Hot Springs may not have added anything to the oil production for which the state has recently been famous but the city had a gusher of another kind which was highly welcomed. A 50,000-gallon capacity well of water at 141 degrees Fahrenheit was added to the hot water production on the United States reservation here by the drilling of a well on the site of a new bath house about to be built. The water was around at 67 feet. It has very materially added to the hot water production of this national reservation.

## SHOOTING AFFRAY AT McHENRY

It is reported that on last Thursday night, some drunken rowdies entered the restaurant of Willie Tate, at McHenry, and attempted to take the place, but Tate being unwilling to be run out ordered them away from the place. It seems that after the rowdies reached the street they fired several shots at Tate, who securing his shot gun returned the fire and drove them away. In the melee a young man by the name of Beasley, an innocent bystander, received a slight bullet wound.

Saturday night, someone, supposed to be one of the rowdies, threw a rock through a window of the restaurant striking Mrs. Tate but causing no serious injury.

## FEDERAL FARM LOANS

### WILL SOON BE AVAILABLE

Land Bank Expects to Begin

Receiving Applications

About April 15th

The Hartford National Farm Loan Association has received from the Federal Land Bank of Louisville that it will probably be in a position to begin receiving applications for loans soon after the middle of this month. A waiting list of farmers desiring loans is being kept at the office of the Association in the Glenn & Summerman building. Those who register there will be notified when the new application blanks arrive.

The making of loans is dependent on the speed with which the \$40,000,000 of land bank bonds bearing interest at five per cent and non-taxable, which will be placed on the market at once, are disposed of. It is felt that these will prove rather attractive bonds. Six weeks after the first lot is sold an equal amount will again be offered. It will probably be sometime, however, before the bank will be in a position to loan money to all applicants. Local officials are urged to take into consideration the purpose for which the loan is desired and to give preference to those farmers whose need is greatest.

The Association's tentative list of borrowers shows that loans amounting to more than \$125,000 will be asked for by Ohio County farmers. This is probably as much as this County will be allowed out of the first bond issue but a fully adequate amount will be available later.

## REDUCED R. R. RATES FOR R. E. A. MEETING

The railroads have granted a rate of 1 1/2 for round trip to Louisville for the annual session of the Kentucky Educational Association, which convenes April 19-22, 1921.

This special rate is offered only to members of the association and dependent parties of their families and will be allowed only on presentation at starting point of identification certificate issued by the Secretary of the Association. All persons expecting to attend the meeting should write the Secretary E. E. Williams, 4215 Southern Parkway, Louisville, for the certificate. County Superintendents, City superintendents, principals and other interested school people should see that their teachers enroll and obtain the certificate before coming to Louisville, as the ticket agent will not be in position to allow the reduced fare without the certificate. Tickets will be sold at special reduction only on April 18 and 19.

## K. E. A. MEETING TO BE APRIL 19 TO 22

The annual meeting of the Kentucky Educational Association is to be held in Louisville, April 19 to 22. Railroads have granted a reduction in fare, making it one and one-half for the round trip. The special rate is not applicable to the general public, but only to members of the association and dependent members of their families. And the rates are upon the certificate plan. So all who contemplate attending must procure certificate and be in possession of an identification card at the starting point. Get your cards at once so that the extra fare may be saved and trouble avoided.

## BIG SOCIAL FREE FOR ALL

Where?—In the basement of the Methodist church. When?—Friday April 15 from 7:30 to 9:00 p. m. Who? For all members and friends of the church. Members of all churches welcome. Program, good music and funny stunts.

All the young people in town are invited. Parents come and bring the children. Mothers bring the babies, these will be a special treat for them and a nurse provided.

Nothing to pay; nothing to sell. Just a good time for all.

## Mr. and Mrs. J. B. Wells, of Cleveland, O., arrived last week to be with Mrs. Well's sister, Isabelle Barnard, who was injured recently

## JOB FOR GEN. PERSHING PROVES HARD TO FIND

Considerable Interest and Speculation at Capital as to  
Leader's Future

Washington, April 9.—Secretary Weeks' recent statement that he would shortly announce a detail to duty for Gen. Pershing, "commensurate with his rank," has caused considerable interest and speculation in the War Department. Several possible assignments for Gen. Pershing, whose rank as general of the army places him above any routine details, have been discussed by officials, it was said.

It has been rumored that the general would retire to accept a diplomatic post, probably that of ambassador to Japan, to succeed Roland Morris, whose resignation President Harding recently accepted. It is understood that this would be the most acceptable diplomatic post Gen. Pershing could be offered. His service there years ago as United States military attaché would tend to qualify him for the position, it has been pointed out. Another diplomatic post mentioned for him is Paris, but it is believed that if given a choice he would prefer Tokyo at this time.

On the other hand, a large number of army officers believe that Gen. Pershing would prefer to make chief of staff to succeed Maj. Gen. Peyton C. Smith, or that Secretary Weeks would seek from Congress legislation placing the entire army on a fiscal basis with him as general of the army at the head of the organization. In the event such a course should be followed it was pointed out, the general would have a chief of staff exactly as he had Maj. Gen. Harbord as his principal assistant and chief of staff in leading the American expeditionary forces during the war.

Another assignment frequently mentioned in connection with Gen. Pershing is that of governor-general of the Philippines, but it is not believed that such a detail would be acceptable to him. A tour of the world under the leadership of an envoy extraordinary, similar to the tours made by other allied leaders after the war, also has been mentioned.

Gen. Pershing has never broached the subject of retirement to the new administration, as far as can be learned. More than a year ago on a letter to Secretary Weeks he indicated his desire to go on the retired list as soon as he had completed important duties on which he was then engaged. Most of those duties have now been completed. Under the law Gen. Pershing may retire at any time with the full pay and allowances of his rank, amounting to about \$23,000 a year.

### EXAMINER HAPS

#### COUNTY OFFICIALS

Frankfort, Ky., April 9.—Collecting \$4,177.88 from County Clerk John P. Dillig of Boone County, due from marriage licenses, gasoline licensing and general license fees, delinquent tax, license penalties, fees and mortgage recording taxes for 1920 and 1921, State Inspector and Examiner James characterized him as "a slow and careless in reporting to the State and careless in keeping his books" in a report made public today. Hundreds of debts and mortgages filed since last July have not been recorded, he said.

County Clerk Stephen Combs, Fletcher County, is "careless with money due the State," the inspector reported. The Commonwealth's Attorney of the Pike-Letcher district made his first two terms and hence no further after the first. Other Letcher officials were complimented.

### COAL PRODUCTION

#### FALLS OFF GREATLY HERE

Washington, April 11.—Despite the miners' strike in Great Britain, with the result that the United States will have to supply the coal formerly exported by that country, soft coal production here is steadily decreasing. Reports to the Geological Survey show that the production was only 6,412,000 tons as against 6,506,000 for the week before.

This is only a little more than half the production of the last year for the strike in England warning months of the winter and even he was sent out by the Survey that unless conditions are remedied there would be an acute shortage this fall.

### IN THE OLD DAYS

Is your wife forever losing her pocket hook?

Of course she is. Don't tell us that she hasn't cried out a million times with a tone of despair, "Where's my purse?"

In the days of full skirts, with that hidden pocket which no man could locate,—in the days of the small purse all bound round with a woolen string, there was security. History, and police records of the full skirt days are silent on woman's lost purses.

But in this day of the capacious bag, with the purse inside, and another purse inside the purse, what married man has not heard with a mingled of fright and disgust that frantic scream, "Where is my purse."

What married man has not been blamed for the loss. The careless rogue should know where it is. He mopes around with a careless indifference with no thought of the rummage bag until it is lost then he is suddenly reminded of the fact that he's a poor stick of a husband all because he didn't keep a weather eye on the wife's vanity bag.

Then the hunt begins, and the poor silly husband asks, "Where did you lose it?" That's a fine question to throw at an excited wife, and she looks on him with a look that would sour an un of sweet cream.

If the scene is laid in a department store, there's a chase that looks like the entire secret service has been suddenly mobilized.

The red-headed saleslady clad in the regulation pocketless one-piece jumps in the pursuit, and the floor walker tries to pacify the wife. The husband says something but he never says the right thing and the woman is sworn to protect and support comes back with a look and a talk that makes him feel like a squad corporal at a meeting of a board of strategists.

Gowns are lifted from tables and chairs. The show cases are explored. The elevator is searched, and a trip is made to the bargain tables in the basement. The whole store is in a state of feverish excitement, and bystanders look on with a smile that is strongly impregnated with a sneer.

Then the husband suddenly has a vague feeling. He ventures the suspicion that it might have been left in the auto. The wife, red-faced and gasping from the excitement, asks her lord if he thinks she's lost all the sense she ever had. She tells him she had the bag in her hand when she entered the store. She wouldn't be turning the store upside down if she had left the bag in the auto.

She also tells him if he'd help hunt instead of standing around like a totem pole, they'd soon find the missing bag. She also reminds him that she's not more sense than to leave her purse in the auto. How did he expect her to buy and pay for anything if she left her purse down in the street.

Then the floor walker suggests that it might be well to look in the auto, for if it was there someone might come along and steal it.

The floor walker doesn't happen to be her husband therefore she treats him with respect. Then the poor fish of a husband is asked why he doesn't go down and look and not stand there like a lobster.

Anxious to get away from the excitement, he goes down the elevator, out into the street and there in the corner of the back seat is the bag. In the bag is the purse. In the purse is the other purse. In the other purse is 34 cents—a quarter, a nickel and four pennies.

He returns to the second floor where everyone is at parade rest awaiting the result of his search.

He passes the bag, penitent like to the worried wife. She doesn't take it, she snatches it, and at the same time tells the spinless benedict that if he had any sense he would keep a watch on the bag. The idea that he couldn't see that she had left the bag on the seat. All the time and trouble and embarrassment could have been spared if he would pay attention to his wife instead of gawking around like a rube.

See us for all kinds of grass and seed needs. Quality first.

## Ten Millions of Dollars

All of which will be sold, in units, to suit purchasers at  
*The Greatest Auction Sale in History*

Sectional view of one of the areas at Camp Zachary Taylor showing character of buildings to be sold.

This Army Camp comprises 2,000 acres of valuable land, adjoining the city of Louisville, together with 2,000 buildings of various sizes, and a vast amount of equipment, such as boilers, plumbers' supplies, stoves, hot water heaters, radiators, electrical equipment, motors, heating and refrigerating plants, etc.

### THE BUILDING PROBLEM

For years building has been at a practical standstill. The high cost of material, especially lumber, and the scarcity of labor have compelled a stoppage in the erection of homes, storehouses, barns, etc. That time has now passed. Workmen have been released by the hundreds of thousands and Camp Zachary Taylor will release lumber and equipment. 68,000,000 feet of yellow pine will be disposed of at this sale and at such prices as bidders see fit to

pay. Come to this greatest of bargain sales and buy what you want at your own figures. Join with your neighbors in making up car lots to save freight rates. A vast number of cedar, white oak, chestnut and creosoted fence posts, water troughs and grain bins will interest every farmer. There are miles of woven wire hog-tight fencing. Two grain elevators, completely equipped with motors, conveyors and chutes.

### OUR GUARANTEE

This is an absolute sale. You win or you lose on April 25th. We sell no one privately, but do an exclusive auction business. No set price, no reservation, no by-bidding, no private sale. This has been our motto for the twelve years we have been in business, during which time we have operated from the Great Lakes to the Gulf, and have never failed or refused to sell a single piece of land, or property of any kind, after it was placed under the hammer. You make the price. The Government makes the deed. That's all.

## THREE PROPOSALS AGREED UPON FOR SOLDIER'S RELIEF

Centralized Authority and More  
Funds for Hospitals Are  
Included

Washington, April 9.—Three definite recommendations to President Harding have been agreed upon by the special commission investigating the care and treatment of disabled service men. They were:

A centralized Governmental authority to have entire charge of all Federal agencies having to do with soldier relief work.

A decentralized administration of service, carrying Federal aid as near as possible to the homes of the soldiers throughout the country.

A request for additional appropriations for hospitals, including a permanent building programme.

Charles G. Dawes of Chicago, chairman of the commission, said he would be greatly disappointed if the public investigation was not concluded.

"We will begin work on the re-

port in executive session," said he.

Col. F. W. Galbraith, Jr., national commander of the American Legion, expressed pleasure at the progress and conclusions which the committee had reached. He said the three most important decisions conformed to the American Legion relief programme and would be of immeasurable value in correcting evils resulting from present divided Governmental authority.

Colonel Cholmley-Jones, former head of the War Risk Bureau said that the work of the bureau was steadily increasing.

Surgeon General Ireland of the Army told the committee he favored consolidation of all Governmental Bureaus for care of soldiers under one head, saying such action would be a great satisfaction to the army medical authorities.

Chairman Dawes interrupted the controversy to plead for speed.

"It's just four years ago," he shouted, "that war was declared. For God's sake let's get through. Let's don't get jostled up with a lot of extraneous matter. We know an intolerable condition exists. Everybody does. What we want is speed. Our job is to provide machinery, we are not concerned with details."

Chairman Dawes enforced rigidly

his rule against extending discussions.

"We are going to stay right here, without lunch," he declared, "until this thing is finished, then we are going into executive session and prepare a report for the President."

The commission closed its hearing during the afternoon, but remained in session to draft its report to the President which was expected to be completed tonight.

### USED IN ONE FAMILY FOR YEARS

Bellepoint, W. Va.—"It affords me great pleasure to have the privilege to make public this statement in behalf of Dr. Pierce's medicines I cannot recommend them too highly to the public. We have used them in our family for years and have reaped good results. We have always found the 'Golden Medical Discovery' superior to any other tonic, as it is a wonderful system builder. I can cheerfully recommend it to all like sufferers."—E. J. CARPER.

Send 10 cents to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for trial package.

### "PUSSYFOOT" RECOVERS

Columbus, Ohio, April 11.—Fully recovered from the attack of bronchitis and laryngitis that compelled him to abandon a Western speaking tour while in Iowa, William E. ("Pussyfoot") Johnson, prohibition worker, will go to Canada soon to fill several speaking engagements before going abroad April 16, he said. Dr. H. H. Russell, Westerville, Ohio, founder of the Anti-Saloon League, and Mr. Johnson will sail for Liverpool April 16. They will tour Europe until July, and then Mr. Johnson will go to India.

### BRITAIN RATONS ITS COAL; LIGHTED SIGNS PROHIBITED

London, April 11.—The Board of Trade issued official orders rationing and reducing coal for the British Isles. Illuminated street signs are prohibited, the regulations being virtually identical with those issued during the strike in 1919.

Sunday was given up to meetings of the miners, railway men and transport workers throughout the country. These meetings were called to give directions for the Triple Alliance conference.

## BILLBOARD THAT HAS MERIT

If There Must Be Out-of-Door Advertising This Is Less Offensive Than Most.

This suggestion of happily wedded art and advertising, is one that may prove of value in ending the guerrilla warfare that has long raged between artists and the artistic-minded public on the one hand, and outdoor-publicity men on the other.

The upright supports of this sign are made from old telegraph poles sunk into the ground; the smaller round pieces, which form the ornamental braces, are furnished by straight saplings. The curved top pieces are made by nailing planks to a framework of

Art and Advertising Are Happily Wedded in This Attractive Outdoor Advertising Sign in Japanese Effect

2 by 4-inch material. The signboard proper, the part that contains the advertising announcement, is made by riveting together several sheets of galvanized iron. The corners are reinforced with heavier metal, so that the whole sign may be held by chains from each corner, as shown in the drawing. By exercising a little care as to location and with tasteful arrangement of inexpensive shrubbery about the base, the appearance of the whole will be decidedly pleasing and the Japanese effect of the signboard will be considerably heightened.—Popular Mechanics Magazine.

## LITTLE FOOD FOR THOUGHT

Some Community Hints That Will Repay the Few Minutes They Will Take to Read.

Some men will not pay \$1 a year to support a commercial organization but will cheerfully hand over \$100 for a hunting dog.

If town building was like scandal, everybody would push it along.

Agassiz says a full-grown man can live ten days chewing the leather of a boot. But no full-grown town can live chewing the rag.

Job, according to historical belief, was a patient man, but he never was a commercial secretary and had an important committee out.

Some towns don't do things to please themselves but to worry their neighbors.

More dangerous than any foreign foe is to endeavor to make one citizen hate another.

A community is much like an egg. Keep it in hot water and it is bound to become hard.

An optimist is a commercial secretary with a \$5,000 deficit in his organization and a state convention on his hands.

There is a wide difference between the best known, and the known best men of the community.—The Nation's Business.

## Woman and Civic Responsibilities.

In so far as one can generalize from the experience of the last few years, women are taking all their new civic duties with commendable thoroughness. The widespread activities of the women's citizen associations have done much to arouse the female voter to the realities, and more especially the responsibilities of civic life. And these excellent bodies have worked on likely material, for those women who have thrown themselves into public affairs have not erred on the side of underrating the value of hard work. Tutors who have to teach adult students of both sexes have rarely been able to censure women students for lack of industry.—Manchester Guardian.

## Bathtub Five Feet Deep Unearthed.

In demolishing one of New York city's old houses recently, a bathtub eight feet long, four feet wide and five feet deep, made of wood and lined with zinc, was discovered by workmen. "To get into it," says the writer who tells of it, "one had to ascend a flight of steps. It had no hot water connection and was used by an old woman born in the house who remembered that it always was there. There were 20 rooms in the house, and this bath in one of them on the third floor was the only bath in the house. It is said this bathtub was one of the first bathtubs in New York.

## The Better Part.

"How much have you left of your week's salary?"

"Oh, the better part."

"Impossible! I know you have spent more than half."

"True, but I have part of it left and what isn't spent is certainly the better part."

## GARRAGE AT CAMP ZACHARY TAYLOR

One of the many buildings at the Cantonment which will be torn down in order that the lumber and other materials used in construction may be utilized elsewhere.

In the sale of Camp Zachary Taylor, at auction, beginning Monday, April 25, the cost of building material will be reduced in such drastic manner that the many who have for several years past been living in uncomfortable and crowded conditions, because of the shortage of homes, will be enabled to procure, at their own price, all material necessary for building.

Many million feet of kiln-dried lumber was selected for the construction of this Cantonment, and it was subjected to the most rigid inspection. Having been exposed to the weather for only a short time, it is practically as good as new, and for rough construction work and outdoor purposes on the farm or in the building of a home, it will answer every purpose that lumber fresh from the mill does, and will doubtless sell for considerably less money.

The same is true regarding the plumbing and heating equipment that was used at the camp. This will be sold in small lots so that the small buyer will be in as good a position to take advantage of these bargains as the large buyer who is able to buy several carloads.

The 2,000 buildings will be offered one at a time, and the successful bidder will have the privilege of buying one, or more of the particular type of building upon which he made his bid.

Many of the buildings will require but the addition of a porch and a rearrangement of the inside partitions to make them comfortable homes, while

If one wishes to go to the further expense of applying steel lath on the sides and putting stucco on the lathe, an artistic, thoroughly modern home could be had for a mere fraction of what it would cost were it not possible to secure this Government property at one's own price, at auction.

The sale will begin on Monday, April 25, and continue until all of the 2,000 buildings and 2,000 acres of land are disposed of. Needless to say, this will be an absolute sale, and the Government will reserve nothing, but will dispose of it all to the highest bidder.

There are many stables, cressets, water troughs and cressets, fence post that should particularly appeal to the farmer, who can purchase them at his own figures.

The putting of this mammoth Cantonment on the market for sale at auction will do much to lower the cost of building. The original cost of buildings and land comprising the Cantonment was \$10,000,000. It will be sold for just what it will bring at auction. A sale of this magnitude has never before been held in Kentucky, and it offers an unparalleled opportunity to those desiring to purchase building material of every description.

The taxpayers who furnished the money to build Camp Zachary Taylor will have an opportunity here to profit by the sale of the land and building material, which will be sold at auction by the Louisville Real Estate and Development Company, of Louisville, who will serve as sales agents for the War Department.

white petticoat was just the thing. There was water near to wash the jagged cut, and *underneath* on the wooden dresser; water, too, to bathe his forehead. The *known* eyes opened at last to look up at her gratefully.

"I tried my best—to do the thing up," the young man murmured, "but everything the weakness—got me. It was an axe on the forehead. I stumbled and fell against it *mean* way—then—when I tried to get back here—to the hut—"

"All right," Lady Kitty said, cheerfully, "don't bother talking. I will—"

Her eyes roving about the room fell upon a small cupboard.

"I will get you something to eat. Then when you feel stronger I'll go and send out a doctor."

But the problem of her future and the problem of the wounded arm, were as nothing in this new problem—of cooking. Everything in the cupboard seemed to be contained in dust. She hurried one can labeled "soup" to the cot.

"How," she asked interestedly, "do you get at it?"

The young man winced with pain as he attempted to show her.

"Oh, I will manage," she assured him with confidence she was far from feeling. But when one hummed a knife into the tin, one made an opening sufficient to release the soup and when one put two sticks in the little stove with some paper and matches beneath, why it naturally made a fire. And when one carried the hot soup to a thankful young man, who nevertheless accepted it matter of fact—well, one felt a glowing satisfaction of accomplishment.

And when Oliver Cavendish that evening welcomed home his daughter, his consternation at her snuggled and disheveled appearance was promptly relieved by the radiance of her smile.

"No," I haven't decided to marry Robert or Arthur," she hastened to tell him.

"Oh, my dear," her father sighed; "either one could do so much for you."

"I can do a good deal for a person I like myself," she retorted. In smiling satisfaction Lady Kitty viewed her roughened hands.

"There's a young forester back in the woods father—" she reminisciently said.

AUTOS-DISPLACE TROLLEY LINES

Automobiles are slowly but surely crowding the tram cars off the streets of scores of American cities, but Bowling Green, Ky., is perhaps the first community where the traction company has shouted "Kamerad," and given up the fight.

This thriving little municipality, with a population of 15,000, claims the distinction of issuing more automobile licenses than any other city of its size in the country. It is said that there is an automobile to every three inhabitants.

This condition is due largely to the fact that Bowling Green is the center of activities in the western Kentucky oil fields, and an automobile is a necessary piece of equipment in operations for oil. The tramway has consequently suffered, until recently it "gave up the ghost" completely.

The final blow came when one of the cars met one of the few remain-

ing pedestrians "head-on" at a street intersection. The victim brought suit against the traction company and won his case. The company being unable to pay the damages awarded, turned over the entire equipment to the thankless plaintiff. The latter rightly considered the further operation of the tram cars an unprofitable venture and promptly junked it. Rails and wire were removed from the streets and sold as scrap metal, and the automobile now holds full sway on all the highways and byways of Bowling Green, an early example of the future motorized city.

From Hartford Backs—Relief Proved By Lapse of Time

Backache is a heavy burden; Nervousness, dizziness, headache, Rheumatic pain; urinary ills; All wear one out.

Often effects of kidney weakness. No use to cure the symptoms. Relief is but temporary if the cause remains.

If it's the kidneys, cure the cause. Doan's Kidney Pills are for kidney ills.

Read about your neighbor's case. Ask your neighbor?

Here's Hartford testimony.

The kind that can be investigated. Mrs. W. T. Woodward, Clay St., says: "I have a good opinion of Doan's Kidney Pills and am glad to praise them because they helped me when I was troubled with my back and kidneys. I am pleased to say a word of praise for Doan's."

(Statement given November 15, 1916.)

On January 25, 1921, Mrs. Woodward added: "I haven't had to take Doan's Kidney Pills since I endorsed them in 1916, as they have cured me of kidney complaint. I am always glad to tell others what Doan's have done for me."

## INTERLUDE

A glance at the heading of this  
column will show that, with this  
issue, there has been made a change  
in the personnel of The Hartford  
Herald Publishing Company. On this  
occasion the stockholders and  
old officers wish to express to the  
patrons and friends of the Hartford  
Herald their high appreciation of  
the cordial support heretofore ac-  
corded the paper. At the same time  
the new management desires to be-  
speak a continuance of this liberal  
patronage by subscribers, adver-  
tisers and the general public and  
pledges its most diligent and sin-  
cere efforts to continue the Herald  
upon the same high plane it has  
occupied ever since its establish-  
ment.

We want to add another word of  
commendation of the efforts of the  
Civic Welfare Committee of the  
local Parent-Teachers Association  
to make Hartford a cleaner and  
more beautiful town. We are now  
in the midst of Clean-Up Week. No  
thoughtful person can and no loyal  
citizen would offer a single objec-  
tion to this movement. It is a long  
step toward a cleaner, healthier,  
prouder and more prosperous munici-  
pality, an example and guidepost  
to the coming generations. Let us  
hope and continue to work to the  
end that in a few years every day  
will be Clean-Up Day and the race  
of old fogies will be extinct.

The new Mail Clerk of this  
blatant old craft yelled "The Her-  
ald of a Noisy World" "sneer do"  
appreciate the kind words and good  
wishes of Elmer McFuke "released"  
in the last issue of The Republican.  
But should his kind wish be grant-  
ed as to a neo-Volstead reception,  
we fear some one would be hurt in  
the rush of applicants for a posi-  
tion on our staff. "J. I." says if  
there is a chance of such, he will  
at once make a supreme effort to  
take over the whole plant. But  
anyway, Friend Plinke, in response  
to all your felicitations and good  
intentions, the untired editorial  
neophyte can only say, in return,  
"I thank you."

The conviction by a Georgia jury  
of the plantation owner, Williams,  
of the murder of one of the unfor-  
tunate negroes who were held by  
him under a system of peonage  
near akin to actual slavery, goes far  
to blot out the stain which has  
frequently been placed on the es-  
cutehon of the Southland by the  
lawless acts of mob violence. The  
same defendant is under indict-  
ment for the murder of ten other  
negroes and it is hard to under-  
stand why the jury failed to give  
the death sentence, but they made a  
step in the right direction. If the  
courts all over the land will mete  
out justice with equal speed and  
certainty, to the high and the low  
alike, there will be fewer mobs and  
a greatly augmented respect for  
law.

On the eve of the special session  
of Congress it seemed practically  
sure that the President had decided  
to recommend the "scrapping" of  
the League of Nations and the  
Versailles Treaty and the conclu-  
sion of a separate peace with Ger-  
many. This action will place Sec-  
retary of State Hughes in a most

embarrassing position, as there  
seems to be no doubt that he is, at  
heart, in favor of the League and  
the treaty and if given free rein  
would again place the United States  
in her rightful place at the Allied  
council table. But the "Bitter-End-  
ers" see their chance to capitalize  
the insistent demand of the country  
for some action which will stabilize  
business conditions and to gain  
their end are willing to sacrifice  
the plighted word of the nation and  
to lose in great measure for us and  
our allies the benefits and privi-  
leges won so dearly by the blood  
of thousands of our fathers, sons  
and brothers. Such action will be  
an incalculable encouragement to  
the Germans in their efforts to  
evade the just demands of the Allies  
for reparation and indemnity and  
only the Eternal Arbitrator of Truth  
can tell how soon this provincial  
effort at national isolation will en-  
roll us in another European con-  
flict. The next few weeks of Con-  
gressional action will be fraught  
with fearful possibilities for weal  
or woe.

SHERIFF DESTROYS  
3 STILL AND BEER

Greensburg, Ky., April 11.—Sher-  
iff T. J. Garin and Deputy Thomas  
Chamblin destroyed three stills, two  
miles south of this place on Green  
River. They destroyed 700 gallons  
of beer and about fifteen gallons of  
whisky. All the stills were operated  
by the same parties and near a big  
spring. The operators escaped, but  
they were recognized by the Sheriff,  
who fired several shots at them  
as they fled.

MINE GAS ACCIDENT  
IN LEITCHFIELD

Jess D. Heybach was slightly in-  
jured and his home in North Leitch-  
field considerably damaged last  
Sunday morning by an explosion of  
burning gas in the cellar. Mr. Hey-  
bach had stepped into the closed  
cellar and lighted a match to see if  
the gas pipes were leaking. They  
were. The explosion threw Mr.  
Heybach with considerable force  
against the wall and the shock and  
bruises of this together with slight  
burns from the ignited gas have  
kept him confined several days.—

## FISCAL COURT SESSION

The Ohio County Fiscal Court  
held its regular monthly session,  
Tuesday and Wednesday of last  
week. Magistrates W. S. Dean, Ben  
Hill, W. C. Daugherty, O. E. Scott,  
Q. B. Brown, W. C. Knott, B. C.  
Rhoads and Ed Showen were present  
as well as County Attorney A. D.  
Kirk and County Court Clerk W. C.  
Blankenship.

Besides the appropriation of \$14-  
000 for the Hartford-Owensboro  
highway, mentioned in these col-  
umns last week, the Court re-elected  
C. O. Hunter to serve as County  
Treasurer, and passed upon a num-  
ber of matters of routine business.

## MATHEWS—DEXTER

It will be a surprise to the many  
friends of Dr. M. M. Dexter and  
Miss Ida Matthews, Centertown, Ky.,  
to learn of their marriage, which oc-  
curred at Rockport, Ind., on the  
11th. Inst. Dr. Dexter is a gradu-  
ate of the Louisville College of  
Dentistry, and entered the United  
States Army as Dental Surgeon and  
for many years, while in line of du-  
ty, held important positions, in the  
United States, Panama and the  
Philippines, and added luster to  
them all. In 1919 he resigned his  
commission. Mrs. Dexter is a  
daughter of Mr. and Mrs. George  
Matthews, and is one of Ohio Coun-  
ty's most accomplished and popular  
young ladies.—Special.

## PECULIAR ACCIDENT

Willie, the little son of Mr. and  
Mrs. O. D. Fentress, of Narrows,  
was injured in a very peculiar way  
one day last week. While he was  
playing near a container in which  
some lime was being slaked a large  
jump of the lime exploded, splat-  
tering over him and filling his eyes  
with the hot mixture. For a period  
of four days he was totally blind  
but has now recovered sufficiently  
to be able to see considerably.

WATERLOO BOY  
The Original Kerosene Tractor

In offering to you the Waterloo Boy, the Original Kerosene  
Burning Tractor, we believe we have selected the most practical,  
economical and dependable farm tractor on the market.

## Points of Merit on Which Our Judgment Is Based:

**PAST PERFORMANCE**.. The Waterloo Boy  
has been a success on farms for five years. In  
no way is it an experiment.

**ECONOMICAL**.. It is a three plow tractor—  
most economical and practical size to use—  
burns kerosene perfectly without destroying  
lubricating oil. Its special, patented inbuilt  
manifold converts every drop of kerosene into  
pure gas—cylinders are not carbonized—spark  
plugs are not fouled. The perfect burning of  
kerosene saves the owner of the Waterloo Boy  
many dollars every year in cost of fuel and  
care of motor.

**POWERFUL**.. The two cylinders, with big bore  
and long stroke, furnish a guaranteed power  
of 12 H. P. at the draw bar and 25 H. P. at  
the belt, with ample reserve for emergencies.  
The Waterloo Boy pulls three plows under al-  
most any field condition. Hyatt roller bear-  
ings at all important bearing points conserve  
full power. Weight of the tractor is sufficient  
to insure good traction for drive wheels.

**SIMPLE**.. Every part is easy to get at and easy  
to adjust or repair. It doesn't require a trac-  
tor expert to keep the Waterloo Boy in good  
working order. The crank case cover, the in-  
spection plate, the upper half of gear case can  
all be removed for the purpose of inspection  
or repair—the operator can work from a stand-  
ing position.

**DURABLE**.. Its heat-treated steel cut gears;  
its force and sight feed oiling system; its 11  
sets of Hyatt roller bearings at all important  
bearing points and its simple, powerful two-cy-  
linder motor combined with uniformly high  
grade construction throughout, result in a  
tractor that has given and will give many years  
of dependable and economical service.

**FOR ALL FARM WORK**.. You can depend  
upon the Waterloo Boy in all farm power work;  
up to its high rated capacity. It is just as sat-  
isfactory in operating belt machines—threshers,  
shellers, ensilage cutters, hay balers, etc.—as  
it is in pulling tractor implements of all kinds.

**\$15.00**

Will do the work today that \$20 or \$25 would do last year. We are making up a big fifteen dollar offering that will save many dollars to the people who are the lucky ones to pick the plums. What are we going to do?—That's the question.

One lot Men's Suits; only 29 of these suits; only one or two of a kind. Former price on these, \$20.00, \$22.50, \$25.00. Clean-up price.....**\$15.00**  
If your size is in this lot grab it quick.

One lot Ladies' Suits, Blue, Black, Gray; former prices \$20, \$22.50 and \$25.00. Out they go—choice.....**\$15.00**  
Only thirteen of these suits, but when you see the price and goods you won't be afraid of the unlucky number.

Only seven very high-grade Spring Coats, very latest styles; worth in any large city \$20 to \$25, will let 'em slip at only.....**\$15.00**

All the above lots will represent a loss to us, but we can take a loss and smile. The people stood the advance three years. It's not our time to kick now, when we take a few thousand in losses. Come see us hand them out and smile all the time.

Our big business creates these short lots, odds and ends. We also have in regular stock all other grades of higher price goods.

**Our New Millinery Department**  
is pleasing the people and saving them a lot of money. We are just as good on this as any other line. Everything in this line is absolutely this season's goods.

You can't know what \$15 will do 'till you see us.

### KILLED; 30 INJURED IN RAILROAD WRECK

Six Coaches Are Derailed Near  
the Kentucky-Tennessee  
State Line

Somerset, Ky., April 7.—Four persons are dead and thirty are in a local hospital as the result of the derailment just north of New River, Tenn., yesterday afternoon at 2:45 o'clock of six cars on train No. 2, the Royal Palm Limited, of the Queen & Crescent Route of the Southern Railway System. Several of the injured may die.

Two of the victims were dead when taken from the wreckage. Two others died on a special train en route here.

Mr. and Mrs. W. H. Perkins, of Louisville, were injured, but were able to go to a hotel after their injuries were dressed. Mrs. Perkins, however, is suffering greatly from the shock. Her husband is a traveling salesman for Buysse Bros. & Co., 504 West Main street. They were returning to Louisville after a trip through the South.

When news was received at division headquarters here and at Harriman Junction, Tenn., calls were sent to Knoxville and a number of other nearby cities for all available doctors and nurses. These were brought to the scene in special coaches, and some of them accompanied the injured here.

The wreck was caused, it was stated by railroad officials, probably by a buckling track or spreading of the rails. An investigation already is under way. It was stated.

Three day coaches and three Pullmans were derailed. The dead were in the day coaches, which were overturned. The Pullmans stayed upright.

Tracks cleared in Four Hours. Wrecking trains were sent to the scene from here and Harriman Junction, and within four hours the tracks were cleared enough for traffic to be resumed. The special bringing the injured arrived here at 4:30 o'clock last night.

Joe Kramer, of Chicago, and Harry Sickles, of St. Mary's O., who were at first reported as dead, are in the hospital here. It was not stated how seriously they were injured. The Royal Palm Limited runs from Jacksonville, Fla., to Chicago. Through sleepers for Indianapolis, Toledo, Detroit, and Chicago are carried.

Relief Train from Somerset. New River is only a hamlet, and no physicians were available, the work of rendering first aid to the injured progressed slowly. A relief train was sent from Somerset,

Ky., sixty miles from the scene of the wreck.

Two Instantly Killed. Hamish and Bussey were killed instantly. Parker died while the relief train was on its way to Somerset, while Cook lived only a short time after he reached the hospital at Somerset at 8:30 o'clock. The facilities of Dr. Beard's Sanatorium were not ample to care for all the injured, and at least fifteen were taken to private homes.

All the physicians of Somerset joined in treating the injured.

Four of the injured are in a serious condition, according to physicians at the hospital. They are: Samuel W. Hawkins, Resaca, Ga.; E. W. Rainwell, Ashland, O.; High John, Flint, Mich.; and Mrs. W. A. Molder, Birmingham, whose husband also was hurt.

Scene Was Appalling. Mr. Perkins discussing the wreck, said:

"We were in the second day coach. The passenger who occupied the seat directly in front of me was killed. I don't know how we escaped. The whole side of the car was smashed in when we hit the ledge. We were sitting on the right side, where most of the passengers were hurt."

"It was all over, of course, before we realized what had happened. The scene was appalling. I cannot describe it."

### SHERIFF SAVES MAN FROM MOB

When Automobile Is Surrounded He Swears In Mob As Deputies

Tampa, Fla., April 11.—The quick wit of Sheriff John Logan, of Polk county, in swearing in as deputies every member of a mob that had surrounded his automobile in which he had a prisoner Wilmer Collins, a negro, prevented a lynching near Lakeland. Collins, who was arrested on a charge of having attacked six white women, was being taken to the Bartow county jail by the sheriff and three deputies. Just outside Lakeland a crowd of 100 men surrounded the party's automobile.

Facing the mob, Sheriff Logan declared: "I know every man among you. I swear each and every one of you in as deputy sheriff. It is your duty now to escort, with us, this prisoner to the jail at Bartow."

While the crowd stood in surprise the officer quickly placed his charge in a faster car than his own and sped away to Tampa. The crowd followed but was outdistanced. Armed guards were on duty within the jail as a precaution against violence.

### HOLDS LIQUOR TAX IS PROHIBITION AID

Wayne B. Wheeler Declares  
Congress Intenden to Retain  
Revenue Laws

Washington, Apr. 11.—The blows given the Anti-Saloon League by rulings of the Department of Justice and Supreme Court decisions staggered it, but the drys are trying to repair the damage done the Volstead act and proceed with a new programme. A question now before the Supreme Court, and which is regarded as vital by the drys, is whether the Federal and State liquor tax laws are repealed by the National Prohibition Act. If lower courts are reversed it means enforcement officers can collect about \$50,000,000 from those who violate the dry laws.

"The various sections of the National Prohibition Act," said Wayne B. Wheeler, counsel of the Anti-Saloon League, "make clear that Congress intended to retain all of the revenue laws and regulations providing for the manufacture and traffic in intoxicating liquor."

Mr. Wheeler argues that the contention that a "law imposing a tax upon the outlawed liquor traffic is void, because the entire liquor traffic is prohibited by the Eighteenth Amendment, is not sound." He adds that "the courts have uniformly sustained laws levying a tax upon the liquor traffic, even though it is conducted in violation of law."

The United States has prohibited the traffic throughout the Nation and has the right to tax the traffic under the revenue laws. Citing opinions to support his position, Mr. Wheeler declared: "One can come to no other conclusion than that the law instead of being inconsistent with the Prohibition Amendment is in entire harmony with it and tends to effect the same purpose, namely: the prevention of the sale of liquor."

"The Congress well knew from its investigations that in some places the law would not be rigidly enforced, because of the lawless character of the traffic. In order to make this outlawed trade bear some of the expense it makes, and in order to discourage the trade in such places, the liquor tax laws were retained, and those who were engaged in the trade in violation of the law were made subject to a special or prohibitive tax."

### COUNTRY IS ALL SET FOR BUILDING BOOM

Survey by U. S. Mortgage and  
Trust Shows Tenants At  
Limit of Endurance

Conditions throughout the country are favorable for the start of an extended building movement, according to a survey of over fifty cities just completed by the United States Mortgage and Trust Company.

President Platten instructed correspondent banks, mortgage representatives and attorneys to report the immediate outlook on five subjects: Supply of business and residential spaces, prospects and trend of rents, volume and class of new construction, with trend of real estate market; supply of mortgage funds and tendency of rate; reduction in labor and building costs, with labor efficiency and unemployment; price reductions and volume of retail trade.

In digest form, he announced the results as follows:

"It is manifest that the shortage in business and residence space, particularly the latter, brought about by the lack of construction during the war, has not to any large extent been met because of excessive labor and building costs and to what is perhaps of equal importance, a condition in the building trades until recently which has made for inefficiency and uncertainty. The seriousness of the shortage is not to be minimized, but the encouraging fact noted is a general, if slight, evidence of improvement. Rents are naturally holding high and firm, pending the erection of more buildings."

"Reports indicate clearly that the volume of building construction is substantially reduced. This is due not only to factors referred to in the preceding paragraph, but to higher money rates and the sudden recession from wartime prosperity. The residential shortage being the most acute and financial requirements in connection with same being more readily met by local funds, it is but natural that new construction is confined largely to homes."

"In general, there seems to be a fair supply of mortgage funds, but with rates ruling high and lenders cautious as to building costs and types of property. The funds of the large life insurance companies, which are going increasingly into city and farm loans, are now an important factor."

"While labor costs are almost uniformly lower, the largest reductions are confined to unskilled labor. The trend of wages, however, is clearly downward. Building costs have generally dropped somewhat more than labor costs, apparently as the result of reductions in materials and greater efficiency of labor, which latter in turn has been influenced by widespread unemployment."

"Retail prices have almost invariably failed to approximate the substantial reductions in wholesale prices, retail merchants resorting to special sales and increased advertising to tide over a situation which is apparently improving. Purchases are being confined much more generally to essentials and buyers are more cautious as to prices and quality."

### KY. BANK ROBBERS WORTH \$1,000 APIECE "DEAD OR ALIVE"

Louisville, Ky., April 11.—Bank robbers are worth \$1,000 apiece, "dead or alive," in Kentucky as result of the action taken by 420 banks in Kentucky each of which has agreed to pay \$250 for each bandit as announced by Harry G. Smith, secretary of the Kentucky Bankers association. Until today it was worth but \$250 to catch or kill a bandit in Kentucky.

Lacking.  
"No, I will not marry you!"  
"Why—er—good gracious, Mabel! I thought—"  
"My husband must be a man of courage."  
"Well, I hate to talk about myself, but I brought home two medals, you know, and—"  
"Yes, but you have just admitted that you have loved me desperately for five weary years, but never before had the courage to propose. No, I can't marry a man with no more nerve than that!"

Buy Your Platinum Now.  
If you have any platinum to buy you had better look after it now as it is predicted by a celebrated authority that the price will keep on soaring until the full resumption of the mines in Russia takes place, which is likely to be some little while yet.

## FARM EXTRACTS

INFORMATION FROM THE EXPERIMENT STATION—AGRICULTURAL PAPERS AND THE COUNTY AGENTS' OFFICE

## How To Fall In A Dairy

Sometimes the best way to show how to do a thing is to tell how it should not be done. Then the way to succeed will be clearly evident. With this plan in view a West Virginia farmer gives some rules on how not to succeed with cows, a copy of which has just been received by the United States Department of Agriculture. The farmer-humorist says:

Don't weigh your milk, for then you might have to figure and think. Feed the cows timothy hay—it is good for race horses.

Cow-testing associations are needless—they show how to save and know.

Keep the bran hot—cows are like woodchucks.

Don't have many windows in the barn—the hired man might look out.

Keep water 'ice cold—shivering gives the cows exercise.

Avoid heavy-milkers—they consume too much valuable time.

## Soy Bean Makes Its Way North To Colder Climes

The soy bean, an Asiatic importation, popularly associated with the South, is making its way north, and, according to reports received by the United States Department of Agriculture, is being well received.

Most of the varieties first brought to this country were from parts of Asia, whose climate corresponded more nearly to the Southern States. Within the last seven or eight years the department has obtained about 300 introductions of soy beans from Manchuria, Korea, and Japan, some of which grew as far north as the fifty-second parallel. The most promising northern varieties are the Black Eyebrow, the Mandarin, and the Manchu, all native to a latitude of about 46 degrees, on account of which they are adapted to our most northern States. A large number of samples of Black Eyebrow soy bean were sent to northern farmers last year and out of 551 reports returned more than 400 were favorable. Reports promise a great increase in acreage in Northern States this year. Seedsmen are lying in supplies of these more northern varieties; but many farmers, if unable to obtain northern seed, will plant old varieties, such as Ito San. From 90 to 95 per cent of soy beans are raised for hay, silage, and pasture, although they are prolific seed producers.

## Corn For The Starving

Fifty million bushels of corn will be the gift of American farmers to the starving millions in Central Europe, China, and the Near East. The grain is a free-will offering made by the members of the American Farm Bureau Federation, according to a report which has reached the United States Department of Agriculture.

The action is characterized as a most generous example of practical charity. The farmer members will furnish the corn; the railway brotherhoods declare they will provide engine and train crews free of charge; and it is expected that the railroads will offer free cars for the gift.

Mr. Hoover has accepted the offer.

## High Sills Cause Of Lost Pigs

Many pigs are lost and others are stunted in growth as the result of exposure because of high sills in front of hogpens. This is the observation of a Nebraska swine grower in a letter to the United States Department of Agriculture on the cause of runty live stock. He urges that stockmen examine their equipment and be certain that small pigs are able to follow the sows into the pens. Attention to balanced rations, sanitation, and pure water are likewise mentioned as methods of preventing runts.

In Davidson County, Tenn., the county agent, eager to increase the number of water systems in the local farm homes, induced the local dealer to cut prices on small water systems. The price quoted was about one-third the regular price—a complete bathroom outfit with kitchen sink and hot-water tank for a little less than \$100. The farmers' wives in Davidson County are most appreciative of this effort to make it possible for them to have such a necessary house convenience at a modern price.

## Christian County Forms Record Jersey Calf Club

Christian county has one of the largest Jersey calf clubs in the United States, according to authorities at the State College of Agriculture.

Organization of the club was begun Dec. 1, 1920 and has just been completed with 44 members enrolled more than 30 of whom have already obtained their calves. The animals which the youngsters will raise are all purebred registered calves several of them being from register of merit sires and dams.

## Circular Number 67 Is Complete Garden Guide

What is said to be one of the most complete collections of facts and information relative to the home vegetable garden is contained in Circular No. 67 issued by the Extension Division of the State College of Agriculture. The publication includes a number of discussions on various subjects relating to the garden in addition to such features as a table of the first killing frosts in Kentucky, a table showing how, when and where to plant, and discussions relative to the control of garden insects and plant diseases. It may be obtained free by writing the Experiment Station, Lexington.

## Poor Seed Threatened By Late-Maturing Corn

Seed corn matured late last fall and unless given special care during the winter will not be as good for seed this spring as it should be, according to members of the Soils and Crops Department of the State College of Agriculture. The specialists are recommending that if farmers have any doubt about the germination of their seed that they give it a thorough test before planting. Complete details concerning the individual ear test by means of the "rag doll" method may be obtained by writing the Experiment Station, Lexington.

A York County, S. C. pig-club boy raised a pig last year that weighed, at 9 months 7 days, 443 pounds. The cost of raising was 6.7 cents a pound.

In Dooley County, Ga., straw was an unsalable commodity until, with the aid of the county agent, the farmers of the county found a purchaser in a firm in Atlanta. The price received was \$15. f. o. b. Atlanta. This netted the farmers \$10.25 a ton for something they thought was not salable. All costs were figured, including baling, labeling, and wiring, hauling, loading, and freight. Harvesting costs prior to thrashing were charged to the grain.

Terracing is needed on many farms in Miller County, Ark., and terracing demonstrations given by the county agent this year have proved both helpful and popular. At a typical meeting with 16 present a drag was made and a couple of modern terraces constructed. One man living in the neighborhood has since purchased a set of instruments and two of the farmers who were present completed arrangements before the close of the meeting to assist each other in terracing their farms. Some of the older boys were taught how to handle the instruments, and a chance was given them to run terraces for themselves.

## Dangers Of Tuberculosis Shown In A Two-Reel Picture

The danger to farm animals and to human beings from the neglect of animal tuberculosis is graphically illustrated in a new motion picture film prepared and issued by the United States Department of Agriculture under the title, "Out of the Shadows." The story has to do with the happy family of Henry Benton, a wholesome farmer, with a large and handsome herd of dairy cattle.

A Government inspector traces an epidemic, suggests a test of the Benton herd, and gives arguments that induce Benton to consent to a tuberculin test. The result of the test shows an appalling condition, and explains the declining health of Benton's beautiful young daughter, who has drunk the milk of a favorite heifer. The clean-up of the farm and Benton's acquirement of a herd of cattle not affected with tuberculosis are results of the inspector's visit. The daughter, however, is not restored to health until after three years in a sanitarium.

The picture is in two reels and carries as a story a human-interest story together with the lesson that it is being widely sought through the loan system of the department, and through purchase by State and local organizations.

## WAR RISK INQUIRY STARTED BY DAWES

Washington, April 11.—President Harding asked his special commission, headed by Charles G. Dawes of Chicago, to make "diligent inquiry" of government department heads in an effort to find out just where the government agencies have been "lacking in authority, neglectful or failing" in caring for disabled service men. He also asked that investigation be "made of the abuses which have developed."

The president's request was in the form of a statement which was read at the first meeting of the commission by Mr. Dawes, who called on the president at the White House. The commission chairman announced that the president's wishes would be carried out to the letter and that the inquiry would not be directed into controversial or extended subjects.

"I have asked you to meet and make an investigation of the administration of the law in caring for the crippled and impaired soldiers of the late world war," said the president's statement. "There have been numerous complaints that the government is neglecting the becoming care of these defenders, to whom it owes every consideration, and there is further complaint that there is tardiness in dealing with them and their claims which grew out of their service."

## Catarrhal Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. What this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, via. T. J. CROWLEY & CO., Toledo, O.

**Ford**  
THE UNIVERSAL CAR

## "THE FORD TOURING CAR"

Surely the most universal of all cars. Serving, satisfying, and money-making, day after day, year after year, everywhere throughout the world of civilization. It stands in a class by itself—the one universal car. A source of pleasure and a bearer of burdens, on the farm and in the city. Anywhere, and everywhere, the Ford Touring Car stands supreme in its service-giving, satisfying, money-making qualities.

That reliable, satisfactory, economical, dependable "Ford After-Service" which is making the Ford dealer and the Ford car twin factors for prosperity, is, as you know, universal in its possibilities because wherever you go the Ford dealer is prepared to take care of your wants and nowhere are they better prepared than right in our shops. We have everything in the way of labor-saving, time-saving machinery, Ford-taught and skilled workmen, and the genuine Ford-made parts. We want you to remember this because it means that your car need never be idle.

We can now give you reasonably prompt deliveries and it is only fair to us that you should leave your orders with as little delay as possible. If you want us to be prompt in making delivery you will be prompt in placing your order.

## SLEUTHS RAID HOME

OF "COUSIN EVERETT"

Life-Sized Portrait of President Sent to Washington

Chicago, April 9.—The life size portrait of President Warren G. Harding, which occupied the position of honor in the home of "Cousin Everett" until it was seized by secret service men, was shipped to Washington.

"Best wishes to a fellow kinsman" is the inscription on the picture, which is to be scrutinized by the president. The signature of the president below the inscription is said by "Cousin Everett" to be genuine, but it was closely examined by the president to ascertain whether or not he wrote it. Some of the secret service men believe the signature of the president is genuine but the inscription is a forgery. They maintain that when the person who forged that greeting is found they will be able to uncover a nationwide organization, which sought to capitalize the name of Harding and used "Cousin Everett" as its dupe.

When the Harding home was raided the secret service men found many telegrams and letters and pictures of "Cousin Everett" and Pearl, the White House baby. The latter photographs were autographed "From Pearl Harding, the White House Baby." Some of the letters and telegrams show that "Cousin Everett and Baby Pearl" were being exploited in advance of their visit to the inauguration. There are bundles of letters from girls who congratulated Pearl on her good fortune.

The raiding of the Harding home was not without its thrills. Scores of neighbors assembled as the secret service men worked and in the height of the excitement Gamaliel made his escape. Gamaliel is the white and gray cat which Pearl renamed in honor of her illustrious kinsman.

Meanwhile, "Cousin Everett" languishes in the jail at Woodstock, Ill., and will remain there indefinitely, or until his father, Ephraim Harding, can be found and induced to sign his bonds. Attorney Erhstein, who has taken the defense of "Cousin Everett," says there is no question of his sanity and that his mania manifests itself in supreme egotism.

## SOLDIER BONUS WINS IN MICHIGAN ELECTION

Detroit, Mich., Apr. 9.—Michigan voters approved a soldiers' bonus and gave Republican candidate for minor state offices the usual heavy majority in election, reports from approximately one-fourth of the precincts of the state indicated. The Republican vote and that favoring the bonus was about three to one in the 700 precincts reporting.

The traction problem was again before Detroit voters. A service-at-cost proposal, put forward by the privately owned system, received but 40 per cent of the vote in 300 of the 473 precincts, while a pro-

posed by the city council that the municipal traction system be enlarged by purchase of eight lines now operated by private owners received 65 per cent of the vote reported. Both issues required 60 per cent to carry.

## MRS. KEENE WEALTHIEST WOMAN IN DAVIESS

Owensboro, Ky., April 9.—With the completion of the county tax assessment by the Board of Supervisors the books show that Mrs. Clara Keene is the wealthiest woman in Daviess County. She is a granddaughter of the late Senator Thomas C. McCreary. Mrs. Keene, besides owning two handsome residences in this city, has 1,014 acres of valuable farm lands. Her total assessment is \$106,145.

The richest man in Owensboro is Robert E. Massie, tobaccoist. Mr. Massie has 1,349½ acres of farm lands, and other valuable property brings his assessment up to \$216,905.

## Ill For Six Months

Kuttama, Ky.—"About eighteen years ago I was bedfast off and on for about six months, suffering from feminine trouble. I doctored with two different doctors, but nothing seemed to do me any good, I was getting worse all the time. A friend came and told me to write to the specialists at Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., as the doctors here couldn't do me any good, so I wrote and they told me to take Dr. Pierce's Favorite Prescription, Golden Medical Discovery, and Pleasant Pellets according to directions, and in a short time I was well."—MRS. ## DANVILLE, ILL., DEMOCRATIC FIRST TIME IN 50 YEARS

Danville, Ill., Apr. 3.—The Democrats obtained a majority in the City Council for the first time in fifty years by electing a Mayor, City Clerk and two Aldermen. Mayor Claude P. Madden defeated Colfax T. Martin, Republican, by 3,375 votes.

BEAVER DAM

Apr. 11.—Claid Lyles is erecting  
a dwelling house on the Morgan-  
town pike a mile from town. Ray-  
mond Chick also is erecting a dwell-  
ing house one-half mile from town,  
on the same pike. Long years ago  
at the cross roads one-half mile  
south of Beaver Dam there was a  
hamlet known as Stringtown. After  
Beaver Dam was laid off, String-  
town was abandoned and most of  
the people moved to Beaver Dam.  
Of late they are rebuilding String-  
town a half mile further out the  
pike from the old town. There are  
ten families living in the new town  
now. The wonder about it is they  
are every one Democrats.
